Whether you want to add a few buttery highlights or make a statement with a completely new blonde "do," your designer has everything you need to lighten your hair. Our blonding system features natural conditioning agents to help your hair retain moisture, making it feel as good as it looks. Our specialty is French balayage, a specific technique of painting highlights onto the hair to complement you. Unlike foil highlights, the technique disguises unwanted re-growth lines and creates a more natural, sophisticated, and dimensional look.

## TREATMENTS

Relaxers, volumizers, extensions, perms, and brow treatments expertly executed.

### RELAXERS

Go straight or combat the summer humidity.

#### **Keratherapy Smoothing Treatment**—By Quotation (starting at \$150)

This revolutionary smoothing system (made for all hair types, including colored and chemically treated hair) eliminates up to 95% of frizz and curl by infusing natural keratin deep into hair's cuticle. Clients love that their hair is manageable and rave that "this is a life-changing experience."

#### **Brazilian Blowout**—By Quotation (starting at \$250)

We are certified to provide Brazilian Blowout Professional Smoothing Treatments, a highly innovative and effective approach to shiny, frizz-free hair. It improves the health of your hair by creating a protective protein layer around the hair shaft to smooth the cuticle. This is an all-day treatment when you bundle it with a cut and color.

### VOLUME

#### **The Evolve Volumizer**—Complimentary initial consultation where you'll get a quote

For women with fine or thin hair—or who are experiencing hair loss, the Evolve Volumizer is a unique wearable solution. Because it has a light-weight, comfortable poly-mesh base that self-molds to your head, it allows your scalp to breathe, doesn't trap water, and causes no damage to existing hair. When you book this service at your initial consultation, you will get 10% off.

#### **Easihair Professional Extensions**—Complimentary initial consultation where you'll get a quote

We offer tape-in extensions that are the highest quality semi-permanent hair solutions for anyone looking to add volume, length, or no-commitment color to their style!

#### **Topical Treatment to Reverse Thinning Hair**

We offer effective topical treatments that combat the causes of severely thinning hair from DS Laboratories and ReGenesis. Begin with an in-salon service, then purchase a take-home kit.

### MODERN PERMS

Perms no longer give you extra voluminous frizzy hair. Now, we can give you a personalized textured style by varying the size and tightness of your curls. Perms start at \$100

### BROWS

No two eyebrows are created equal, and they shouldn't be treated that way. Our stylists will work with you to create a brow shape that works best for you. To protect and strengthen your brows at home in between visits, we also offer Revitalash eyebrow conditioner.
